DESCRIPTION

- Audio Management: With this option, individual voice or sound files can be stored in the system for specific events. As soon as the event occurs, the system plays the individual sound file instead of the standard sound file in this case. In this way, for example, voice output can be stored for workshops for the blind, such as “too light”, “OK” or “too heavy”. Furthermore, the volume of the sound output can be adjusted individually

SPECIFICATIONS

Article codes, product groups & Status information

Model article-code	SET-261
Model-Serie	ETS
Assortment	KERN
Product Type	Software
Product group	EasyTouch
Product usage type	Main item;Accessories/Services
EAN code (Model)	4045761246157
Successor Model	SET-261-2026e
Customs tariff number	85234910
Country of Origin	DE
