BR12

Versatile weight indicator

with Checkweigher function

IDEAL FOR WEIGHT CONTROL AND TOTAL ACCUMULATION

Combines precision, stability, and ease of use in a robust design with a backlit LCD display. Perfect for integration into weighing lines or control stations, it offers a fast and reliable response at all times.

Dynamic or static weighing technology for daily processes

Baxtran BR12

MOVE | CHECK | RS232 | RS232 | BAT INT | AC/DC | IP54 | NO VERIF

FEATURES:

- Multifunction weight indicator with high precision, immediate response, and consistent performance in any environment.
- Housing made of high-strength ABS, with a compact and ergonomic design.
- Backlit 6-digit LCD display (22 mm) that ensures excellent visibility.
- Automatic and simple external calibration.
- Flexible mounting: tabletop, wall, or column.
- Compatible with up to 4 load cells of 350 Ω.
- Ideal for static weighing systems, filling control, and weight verification.

FUNCTIONS:

- Automatic zero and tare.
- Preset tare.
- Unit change (kg, g, lb, oz).
- Total accumulation.
- Audible alarm for weight control (Checkweigher mode).

DESIGN AND USABILITY:

The **BAXTRAN BR12** indicator has been designed to offer maximum ease of use and a clear and precise reading in any environment. The **BR12** weight display guarantees a stable, precise, and fast response, ideal for industrial processes that require continuous control and long-term reliability.

RECOMMENDED APPLICATIONS:

- Industrial production.
- Logistics and transportation.
- Process control.
- Weighing platforms and automated systems.

TECHNICAL SPECIFICATIONS:

- Model: BR12.
- Stabilization time: ~1 sec.
- Operating temperature: 0 °C to +40 °C.
- Main power supply with AC/DC adapter 100-240Vac 50-60Hz.
- Display: 6-digit LCD (22 mm) with backlighting.
- ABS housing.
- Compatible load cells: Up to 4 cells of 350 Ω.
- Approximate net weight: 0.49 kg.
- Weight with packaging: 0.79 kg.

DIMENSIONS:

Dimensions (mm)	a	b	c
Indicator	175	85	45

RS232 connector

Display and keypad

Tiltable bracket

BAXTRAN ADVANTAGES

- High precision and stability in any environment.
- Robust and ergonomic design.
- Total connectivity and easy integration with external systems.
- Baxtran manufacturing and warranty.
