PRODUCT SHOWCASE

ENGLISH

DESCRIPTION

- Goods to be weighed which are non-conductive, such as plastic, china, glass, etc often carry electrostatic charge. The electromagnetic field which then occurs between the goods to be weighed and the balance can cause the weighing result to be distorted by up to a gramme. Therefore, when weighing in milligrammes or even smaller increments, we recommend neutralising the electrostatic charge with the ioniser KERN YBI-01A. With feet supplied with the ioniser, it can be positioned conveniently next to the balance or you can manually direct it from all sides onto a particular item to be weighed
- Discharge of ozone: 0,05 ppm/h

SPECIFICATIONS

Article codes, product groups & Status information

Model article-code	YBI-01A
Model-Serie	YBI
Assortment	KERN
Product Type	Laboratory balances

Product group	Accessories (printer, etc.)
Product usage type	Accessories/DL
EAN code (Model)	4045761194984
Customs tariff number	90160090
CE Label	yes
Country of Origin	IT

Technical data - Power supply

Mains adapter/adapter included	AUS;CH;EURO;UK;US
Mains adapter	Power supply unit

Technical data - Packing & Shipping

Gross weight	0.70 kg
Net weight	0.45 kg
Shipping method	Parcel service
Packaging component - by weight - cardboard	128 g
Packaging component - by weight - styrofoam	128 g
Packaging component - by weight - glass	0 g
Packaging component - by weight - wood	0 g
Delivery time	1 d
